

“Reinventing & Transforming the Energy System”
Alder Commons Hall Auditorium
at the University of Washington
April 4-5, 2018

Speaker: Evan Sorrell, PE and Manager, Transmission Operations and Balancing, Puget Sound Energy.

Title: Puget Sound Energy’s Energy Imbalance Market Implementation

Abstract: This talk will provide an overview of general Energy Imbalance Market operations as well as implementation lessons learned and operational impacts specific to PSE. This talk will benefit those involved in System Operations, Scheduling and Integrated Resource Planning.

Bio: Evan has been involved in electrical generation for over twenty five years. Working initially in the marine diesel generation industry, he returned to school mid-career to earn a BSEE in power and controls. Joining PSE in 2004, he has served roles in Generation Plant Engineering, Thermal Plant Supervision, and Transmission System Operations.
